-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 12 October 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

Note: One of foreign references (EPO 09130592) is not considered for the examination because it is not available.

#### ***Response to Amendment***

1. This office action is in response to the amendment filed on 10/12/2005. Claims 1-20 are pending in the instant application.

#### ***Drawings***

2. New corrected drawings are required in this application because legends are not complete for figures 1-3. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

#### ***Claim Rejections - 35 USC § 112, First paragraph***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 2662

4. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Re claims 1 and 11, it recites “demultiplexer controlled to select a portion of a received signal corresponding to a selected channel or channels, the demultiplexers being arranged to output to a remultiplexer configured to determine selected signal portions that have overlapping addresses, to reallocate addresses of the signal portions so there is no overlap”. The specification fails to describe how a demultiplexer is controlled to select a portion of a received signal corresponding to a selected channel or channels and how to determine selected signal portions that have overlapping addresses.

Claims 2-10 and 12-20 dependent on claims 1 and 11 are similarly rejected.

***Claim Rejections - 35 USC § 112, Second paragraph***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claims 1, 3, 10, 11, 13, and 20, it is not clear what is meant by “selected signal portions that have overlapping addresses” and ‘to reallocate addresses of the signal portions so there is no overlap”.

Claims 2-10 and 12-20 dependent on claims 1 and 11 are similarly rejected.

***Response to Arguments***

7. Applicant’s arguments filed on 10/12/2005 have been fully considered but they are not persuasive.

**Rejection under 35 USC § 112, Second paragraph**

On page 6 the Applicant argues that the terminology for overlapping addresses and reallocate of addresses of the signal portions is clear and definite by pointing to the description on page 5, lines 1-6 of the specification. The Examiner respectfully disagrees. That section of the specification is literally the same as the claims and does not provide any clarifying definition. It is not clear to a person skilled in the art what is meant by overlapping addresses and reallocating addresses of the signal portions so there is no overlap. Therefore, the Examiner concludes that the rejection of claims 1-20 is proper.

*Conclusion*

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hong Cho whose telephone number is 571-272-3087.

The examiner can normally be reached on Mon-Fri during 7 am to 4 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hassan Kizou can be reached on 571-272-3088. The fax phone number for the organization where this application or proceeding is assigned is 571-273-3088.
